2025 HIGHLIGHTS

In 2025, the New York Life Foundation remained focused on making philanthropic impacts across the country. Through strategic initiatives we engaged our workforce to strengthen local communities, ensuring our resources and programs deliver meaningful support. We remained dedicated to addressing challenges, investing in nonprofit partners, and empowering our workforce to make a difference.

Childhood Bereavement Support: Since establishing childhood bereavement as a funding priority in 2008, we've committed nearly \$100 million to support grieving children and their families. Beyond funding, we actively partner with nonprofits to raise awareness about grief's profound impact and foster collaboration among grantees. Recent efforts include driving systemic change to provide bereaved families with critical resources, such as access to Social Security benefits. Through the Children's Collaborative initiative piloted in Utah and expanding nationwide, we aim to ensure every grieving child and family has the support and information they need.

Education Support: In 2025, we continued to invest in programs that expand learning opportunities inside and outside school hours. Our partnership with Virtual Enterprises (VE) helped to launch VE-JV, an initiative tailored for middle school students to develop entrepreneurial skills. This program equips young learners with the tools and confidence to thrive as they transition to high school, building a strong foundation for future success.

Workforce Engagement: At New York Life, our workforce is the heart of our philanthropy and community engagement efforts. Their time, energy, and financial contributions amplify our commitment to being a responsible corporate citizen. By participating in over 3,700 volunteer activities and Acts of Kindness totaling over 323,000 volunteer hours in 2025, they made a significant impact on the lives of others.
